REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record do not anticipate nor do they reasonably suggest the load cell deflasher assembly nor the method as claimed in claims 1 and 42. The closest prior art, Weeks (US 6,685,873) Weeks discloses the invention substantially as claimed except for a load cell pressure transducer. Another closely related prior art, Schorn et al (US 5,299,478) teaches a punch press wherein a transducer (38, 42) is used to monitor and track the position of a ram so as to better control the velocities thereof and reduce noise. See c. 2, l. 64 - c. 3, l. 38. However, the Examiner agrees with the Applicant's arguments in that the Schorn et al transducers measure velocity as opposed to pressure, and therefore not combinable to obtain the claimed invention. Thus, it is believed that the lacking feature and steps in combination with all the other recited features and steps in the claims are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles Goodman whose telephone number is (571) 272-4508. The examiner can normally be reached on Monday-Thursday between 7:30 AM to 6:00 PM EST.
